*The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

NETUNO supports the Indonesian Fishery Improvement Project, where we pledged to focus our snapper raw material purchase on fish that are over 4 pounds and have reached maturity. This size fish virtually eliminates the production of natural cut fillets under 14 ounces, with the exception of a 5% underweight tolerance.
